

I am writing in connection with the issue of LPFM. I currently listen exclusively to K-LOVE which is in danger of being replaced by the expansion of LPFM. This Christian music station is the only one in our mountain area and supports the Christian community with appropriate music and messages for the family (i.e., family oriented broadcasting), events for our church and other new by churches, Christian music events and concerts, etc. It is a vital part of our community. Please do not let the expansion of LPFM take away our Christian station.
